

EQUINE MASSAGE FOR PERFORMANCE HORSES

“Hands-on” Integrated Equine Massage Seminar-Workshop

Masterson Method™ Massage Seminar- Workshop for Horse Owners, Trainers and Therapists

In this Seminar-Workshop Jim will teach you how to read and use responses of the horse to your touch to release accumulated stress in key junctions of the body that most affect performance.

Learn how to recognize what the horse is telling you through visual and palpable responses that enable you to get deeper releases of tension than the horse would otherwise be able to release on its own. This is a truly interactive process that results in a change in relationship, and an improvement in movement and performance.

Jim Masterson

These techniques are used by Jim Masterson on horses in all disciplines, including top level international jumpers, and the USET Endurance Team at the 2006 FEI World Equestrian Games and 2008 FEI World Endurance Championships. Jim is a presenter at Equitana Asia Pacific, Equine Affaire, and creator of the DVD, *Equine Massage for Performance Horses - The Masterson Method™*.

Or phone: +32 478.21.22.08

To ensure one-on-one attention from Jim, attendance will be limited

For More Information on the Masterson Method™ go to: www.MastersonMethod.com

Jim has developed a creative method of bodywork that consistently gets results. The participation of the horse in the process and communication between horse and bodyworker is integral. Jim's rapport with his equine clients is rivaled only by his rapport with his students. Workshops and classes are presented in a supportive atmosphere, with clear instructions and hands-on learning and his quick wit and sense of humor put everyone at ease. - Cyndi Hill
