Animal Communicator, Author, TV Personality

Intuitive Communication with Animals “Hands-On” Seminar ~ Workshop

Heidi Wright

The techniques Heidi teaches are the same she uses to communicate with all species of animals to resolve behaviour issues, negotiate transitions, discover health issues, learn about an animal's history and find lost pets.

Her background as a California Highway Patrol Officer has led her to develop an easy to learn, practical, no-nonsense method of communicating with animals which she has used with pets and their owners from more than 20 countries around the world.

Heidi's workshops are very well presented and extremely practical. There was a lot of time spent practicing the techniques and I think we were all amazed how quickly we found we could actually communicate with animals!

- P. Townsend

Basic Skills in Intuitive Animal Communication Seminar – Workshop for Pet Owners, Trainers, and Therapists

During this Seminar – Workshop, Heidi will teach you how to quiet the mental chatter of your mind and use skills you already possess to send and receive intuitive communication to and from animals.

Her step-by-step instruction takes the mystery out of connecting with the gift we all have and allows you to realise how you receive information best – by intercepting and exchanging lightning-fast mental pictures (clairvoyance), by hearing words and thoughts (clairaudience) or by feeling emotions or physical conditions (clairsentience).

If you have ever caught yourself saying an animal “feels sad”, “loves roasted chicken”, or “says he's tired”, you owe it to yourself and your pet to learn more about your own hidden talents!

Weekend Seminar – Workshop

May 8th ~ 9th 2010

Location:

Woofs & Hoofs Animal Massage – Helchteren, Belgium

Seminar – Workshop Tuition:

€250 – 10am-5pm Saturday and Sunday – No Auditing
