

# Learn to Talk to your pets

Let Professional AC Heidi Wright show you how !

## 2-Day “Hands-On” Seminar – Workshop in Intuitive Communication with Animals

### Heidi Wright

Using her background as a California Highway Patrol Officer, Heidi has developed an easy to learn, practical, no-nonsense method for communicating with animals. She has taught owners from more than 20 countries around the world how to use her method with their pets.

The techniques Heidi teaches are the same she uses to communicate with all species of animals to resolve behaviour issues, negotiate home and life transitions, discover health issues, learn about an animal's history and find lost pets.

*Heidi's workshops are very well presented and extremely practical. There was a lot of time spent practicing the techniques and I think we were all amazed how quickly we found we could actually communicate with animals!*

*- P. Townsend*

### Intuitive Animal Communication for Beginners is perfect for Pet Owners, Trainers, and Therapists

During this Seminar – Workshop, Heidi teaches you how to quiet the mental chatter of your mind and use skills you already possess to send and receive intuitive communication to and from animals.

Her step-by-step instruction takes the mystery out of connecting with the gifts we are all born with and allows you to recognise how you receive information best – by intercepting and exchanging lightning-fast mental pictures (clairvoyance), by hearing words and thoughts (clairaudience) or by feeling emotions or physical sensations (clairsentience).

If you have ever caught yourself saying an animal “feels sad”, “says he's tired” or “is looking for his...” you owe it to yourself and your pet to learn more about your own hidden talents!

## Two day Seminar – Workshop Saturday & Sunday, 25-26 June 2011

### Location:

Woofs & Hoofs Animal Massage – Helchteren, Belgium

### Seminar – Workshop Tuition:

€250 – 10am-5pm Saturday & Sunday – No Auditing
